Preface 1

Explosion and Shock-Wave Phenomena

Application of shock wave research to geophysics 4
K. Takayama, O. Onodera, T. Saito

NIRIM two-stage light–gas gun and equation of state of carbides. 11
T. Sekine, T. Kobayashi

Hysteresis phenomena in shock wave reflections in steady flows 15
G. Ben-Dor

Shock compression experiments on several polymers in the 1 GPa stress region 20
K. Nagayama, Y. Mori, K. Hidaka

Experimental study on the channel effect in emulsion explosives 25
F. Sumiya, K. Tokita, M. Nakano, Y. Ogata, Y. Wada, M. Seto, K. Katsuyama, S. Itoh

Water shock wave emanated from the roughened end surface of an optical fiber by pulse laser input 30
M. Nakahara, K. Nagayama

Rippled shock propagation and hydrodynamic perturbation growth in laser implosion 34
R. Ishizaki, K. Nishihara, J.G. Wouchuk, K. Shigemori, M. Nakai, N. Miyanaga, H. Azechi, K. Mima

Precise measurements of underwater explosion phenomena by pressure sensor using fluoropolymer. 39
K. Murata, K. Takahashi, Y. Kato

Application of the unsteady wave sensing system to the plate impact experiment 43
Y. Sato, M. Komori, W. Kikuchi

Von Neumann reflection of underwater shock wave 48
Y. Nadamitsu, Z.Y. Liu, M. Fujita, S. Itoh

Non-ideal detonation of emulsion explosives 52
K. Takahashi, K. Murata, Y. Kato, M. Fujita, S. Itoh

Dynamic behavior of materials induced by explosive loadings initiated using wire explosion techniques 56
T. Hiroe, H. Matsuo, K. Fujiwara, T. Abe, K. Kusumegi, T. Katoh

The converging gas flow driven by metal jets 60
H. Fukuoka, K. Fujiwara, H. Matsuo, T. Hiroe

Underwater explosion of spherical explosives 64
A. Kira, M. Fujita, S. Itoh

The Use of Shock Waves for Materials Processing

Synthesis

Creation of superhard B–C–N heterodiamond using an advanced shock wave compression technology 69
T. Komatsu, M. Samedima, T. Awano, Y. Kakadate, S. Fujiwara

Shock-assisted synthesis of Ti_5Si_3 intermetallic compound 74
N.N. Thadhani, S. Namjoshi, P.J. Counihan, A. Crawford

Defect-enhanced solid-state reaction behavior of shock-modified Ti + C powder mixture compacts 79
J.-H. Lee, N.N. Thadhani

X-ray diffraction and mechanical property studies of TiC_x synthesized by shock-assisted reaction sintering 83
J. Lee, N.N. Thadhani

Shock-induced reaction of molybdenum silicide from pretreated powders by mechanical alloying 87
T. Aizawa

Elsevier Science S.A.

Laser shock loading device for real time evaluation of shock induced reaction 91
K. Ito, T. Aizawa

On direct transformation from hBN to cBN. 97
Y. Kuroyama, K. Itoh, Z.Y. Liu, M. Fujita, S. Itoh

High-temperature-shock compaction of ceramics/silicide composites produced by combustion synthesis 100
R. Tomoshige, T. Goto, T. Matsushita, K. Imamura, A. Chiba, M. Fujita

Effect on addition of titanium diboride to titanium carbide produced by the SHS/shock consolidation method. 105
R. Tomoshige, Y. Kakoki, K. Imamura, A. Chiba

Powder Compaction

Discrete element modeling of shock compression of hexagonal boron nitride powder with and without copper addition. 109
Y. Horie, K. Yano

The double explosive layer cylindrical compaction method 115
M. Stuivinga, H.J. Verbeek, E.P. Carton

Explosive consolidation of amorphous cobalt-based alloys. 121
B. Shao, Z. Liu, X. Zhang

Shock synthesis of 2124Al–SiCp composites. 125
K.S. Kumar, T.B. Bhat, P. Ramakrishnan

Microstructures of shock-consolidated diamond/silicon composites. 131
M. Ohkoshi, T. Akashi, K. Yamada, A.B. Sawaoka

Preparation of Fe–W system metastable alloy bulk body by mechanical alloying and shock compression 135
X.S. Huang, T. Mashimo

Effects of decomposition on the magnetic property of shock-consolidated $Sm_2Fe_{17}N_x$ bulk magnets 138
T. Mashimo, X. Huang, S. Hirosawa, K. Makita, S. Mitsudo, M. Motokawa

Explosive compaction of Nd-Fe-B powder. 142
S. Ando, Y. Mine, K. Takashima, S. Itoh, H. Tonda

Shock compaction of Al-based nanocrystal materials using an ion-beam device 148
M. Tsuchida, T. Aizawa, K. Horioka

An improved high-temperature shock compression and recovery system using underwater shock wave for dynamic compaction of powders 153
K. Hokamoto, S. Tanaka, M. Fujita, R. Zhang, T. Kodama, T. Awano, Y. Ujimoto

Welding

Measurement of free surface velocities of copper plates by interferometer. 158
Y. Sano, A. Abe, H. Itoh

Numerical simulation of the plastic flow field near the bonding surface of explosive welding 162
A. Abe

Microstructure and bonding strength of impact-welded aluminium–stainless steel joints 166
H. Date, S. Kobayakawa, M. Naka

On the explosive welding of a ring to the axisymmetric body. 171
J. Buchar, S. Rolc, V. Hrubý

A new method for explosive welding of Al/ZrO_2 joint using regulated underwater shock wave 175
K. Hokamoto, M. Fujita, H. Shimokawa, H. Okugawa

Others

The effect of shock pressure on the mechanical properties of some b.c.c. metals. 180
I. Fukuda, M. Ohmori, M. Fujita

Impact compression behavior of FCC metals with pre-torsion strains 184
T. Hasebe, S. Kumai, Y. Imaida

Impact metamorphosed compositions of the Fe–Si–Ni–S system 188
Y. Miura, S. Fukuyama, A. Gucsik

Compositional changes by multiple impacts 192
Y. Miura, S. Fukuyama, A. Gucsik

High-strain-rate Forming

High strain rate forming using an underwater shock wave focusing technique 194
T. Hasebe, Y. Takenaga, H. Kakimoto, Y. Imaida

Sheet metal forming by using gas imploding detonation 198
A. Honda, M. Suzuki

Dynamic punching of holes in an aluminium pipe using impulsive hydraulic pressure 204
Y. Nakiyama, M. Mochihara, M. Fujita

Local deformation and buckling of a cylindrical Al tube under magnetic impulsive pressure 209
Y. Hashimoto, H. Hata, M. Sakai, H. Negishi

Dynamic axial plastic buckling of square tube 213
M. Miyazaki, H. Endo, H. Negishi

Optimum structure design method for non-die explosive forming of spherical vessel technology 217
R. Zhang, H. Iyama, M. Fujita, T.-S. Zhang

High Pressure Phenomena of Materials

High pressure studies of the concentrated Kondo compounds $Ce(In_{1-x}Sn_x)_3$ 220
G. Oomi, T. Kagayama, J. Sakurai

Application of the strain gauge method to thermal expansion measurement under high pressure and high magnetic field 224
T. Sakai, T. Kagayama, G. Oomi

Lattice instability of high-T_c superconductor 229
T. Kagayama, G. Oomi

Author Index of Volume 85 233
Subject Index of Volume 65 234

The publisher encourages the submission of articles in electronic form thus saving time and avoiding rekeying errors.
A leaflet describing our requirements is available from the publisher upon request.
